

OUTthere

The inflight magazine for REX, Skywest and Airnorth

September is our

HR & Recruitment issue

OUTthere is Australia's only monthly, nationally distributed magazine concentrating on regional tourism, regional lifestyle and importantly, regional business.

The September issue will have a dedicated HR & Recruitment section, including:

- The particular HR and recruitment needs of regional businesses as opposed to metro businesses.
- What skills are most in demand by regional business and industry
- Salary comparisons of regional workers to metro workers
- We ask the question "should you, as a regional business, use a professional HR and recruitment agency, or do it yourself?"
- We look at some women doing great things in high places for regional business.
